				Classification	Symbol	Signal word	Hazard statement	Rationale for the classification	Classification	Symbol	Signal word	Hazard statement	Rationale for the classification	
20A2357	Arsenic(V) fluoride	7784-36-3	Gases under pressure		Gas cylinder	Warning	Contains gas under pressure; may explode if heated	Its boiling point is -53.2degC (Merck, 13th, 2001). Since information on its critical temperature is not available, we cannot determine if the substance is a compressed gas or liquefied gas.	Compressed gas or Liquefied gas	Gas cylinder	Warning	Contains gas under pressure; may explode if heated	Its boiling point is -53.2degC (Merck, 13th, 2001). Since information on its critical temperature is not available, we cannot determine if the substance is a compressed gas or liquefied gas.	March, 2015
